

LAKOTA MISSION

CCC has been sending short-term mission teams to the Pine Ridge Indian Reservation in South Dakota since 1996. The teams come alongside the Lakota people to help build community, teach self-sufficiency, and to share the love of God. CCC also supports the team of missionaries who live and work on the Reservation year-round. Team projects have included building and renovating the Re-Creation and Worship Center, hosting bicycle repair, basketball camps, VBS, and doing home makeovers. The gym at the ReCreation Center has been acknowledged by the Lakota Sioux Tribe as a place of safe-keeping, which has kept gang activity, teen drinking and drugs to a minimum. The Tribe voted this year to help financially with the utility expenses of the gym. Check out what God is doing through this mission and see if it ignites your calling.

Completed projects:

- Construction of full size gymnasium for daily use by before and after school kids, as well as junior and senior high weekend activities
- Construction of new commercial kitchen
- 12 years of bike ministry
- 12 years of Vacation Bible School

Current projects now underway:

- Construction of church sanctuary used weekly by Pastors Eric and Leon
- Construction of bunk rooms for visiting mission groups
- 12 more years of bike ministry
- 12 more years of Vacation Bible School

Please help us continue this important mission. Your generous contributions will help with completing the new sanctuary and bunk rooms. Please make checks payable to CCC and write LAKOTA in the memo line. Thank you!
